NUMBER 68.

INSPECTOR READY TO IDENTIFY THE SUSPECTS

CRIPPEN WELL KNOWN TO DEW READY TO NAB

Will Go Aboard Montrose As Soon As She Arrives at Father Point and Inspect Couple.

KNOWN FUGITIVE IN LONDON BEFORE FLIGHT

Was Man Who Unearthed Remains of Woman in Residence of Dentist

It was reported last night that Inspector Dew, of Scotland Yard, arrived today on the steamship Laurantia from London and is waiting here to unlock the secret that the stowaway Montrose will bring in Sunday.

FATHER POINT, July 29.—The man who holds the key to the Crippen case, Inspector Dew, of Scotland Yard, arrived today on the steamship Laurantia from London and is waiting here to unlock the secret that the stowaway Montrose will bring in Sunday.

Dew is the English officer who made an examination of the Crippen's home in Leamington after the discovery of the mutilated remains of a woman. Crippen was then a fugitive.

Dew is probably the only person in America tonight qualified to identify with certainty the two suspects. He will board the Montrose here when she stops to take on a river pilot, seek out the two whom Capt. Kendall believes to be Crippen and Miss Leneve, and, if he clinches the captain's suspicions, the so-called Robinson will be arrested by the Canadian police officers who are waiting here with warrants charging Dr. Crippen with the murder of unknown woman. His companion will be held as an accomplice.

Chief McCarthy of the Quebec police is of the opinion that the suspicions of the Montrose skipper are correct.

The wireless station here responded all day with messages between the Canadian authorities, the Scotland Yard inspector and the captain of the Montrose. An immense amount of red tape had to be unrolled before the London detective could be landed here from the Laurantia. Father Point has no quarantine and no customs inspector, but Captain Jean Baptiste Deane of the tug which puts the pilots aboard the incoming liners, received orders from Ottawa and took Dew off. When the pilot boat left this afternoon she carried two physicians especially authorized to inspect the Laurantia.

The long expected detective proved to be a large florid faced man, wearing a long green ulster and an air of importance and reserve.

He was surrounded immediately by newspaper men, but dodged behind the Canadian police and declined to discuss the case. "I am sworn to secrecy and cannot answer questions," he said.

The fact that Dew sought Chief McCarthy seems to indicate that the provincial officers and not the Dominion authorities will arrest Crippen if he is aboard the Montrose. The Montrose will enter the mouth of the St. Lawrence tomorrow. She is due in Quebec early Monday morning.

Dew and McCarthy visited the local wireless station tonight and made sure that the restrictions placed by the government upon wireless communication with the Montrose was regarded. The police say the couple aboard must know they are under suspicion. Every precaution is taken to prevent them from getting wind of it.

It is by complete surprise that Dew (Continued on page 4)

NEW MEXICO STORM KILLS THREE PERSONS

ALBUQUERQUE, N. M., July 29.—Mrs. Juan Le Ro, a Mexican woman and her two children, were drowned in a flood which swept Gallup, N. M., at 4 o'clock this afternoon, following a cloudburst in the mountains. The Gallup electric light plant and fire station were badly damaged.

KING OF SPAIN RECALLS HIS AMBASSADOR

Break With Vatican Announced as Final by Premier Canalejas, Who Will Continue Anti-Clerical Program.

SAN SEBASTIAN, Spain, July 29.—At the conclusion of a conference this evening between King Alfonso and Premier Canalejas, it was announced that Marquis Emilio De Ojeda, Spanish ambassador to the Vatican, had been recalled. At the same time the opinion was expressed that a rupture with the Vatican was inevitable.

Senator Canalejas told the king that the government could not accept the conditions of the Vatican's last note and that the Vatican should be so informed.

Canalejas will continue his anti-clerical program, counting on the support of King Alfonso.

INTERDICTS MANIFESTATIONS BILBOA, Spain, July 29.—On account of the excitement here over the church and state question, the governor has interdicted all Catholic and other manifestations which had been arranged for Sunday.

TUCSON PARTY MEN BEGIN TO PUSH FIGHT ON

Democratic Gathering Cheers Speakers as They Tell of Republican Perfidy in Connection with Statehood.

TUCSON, July 29.—(Special)—With two rising challenges to republicanism, the democrats of Pima county opened their campaign for delegates to the constitutional convention at the Tucson opera house tonight. Hon. Edwin F. Jones and Senator Eugene S. Ives were the speakers.

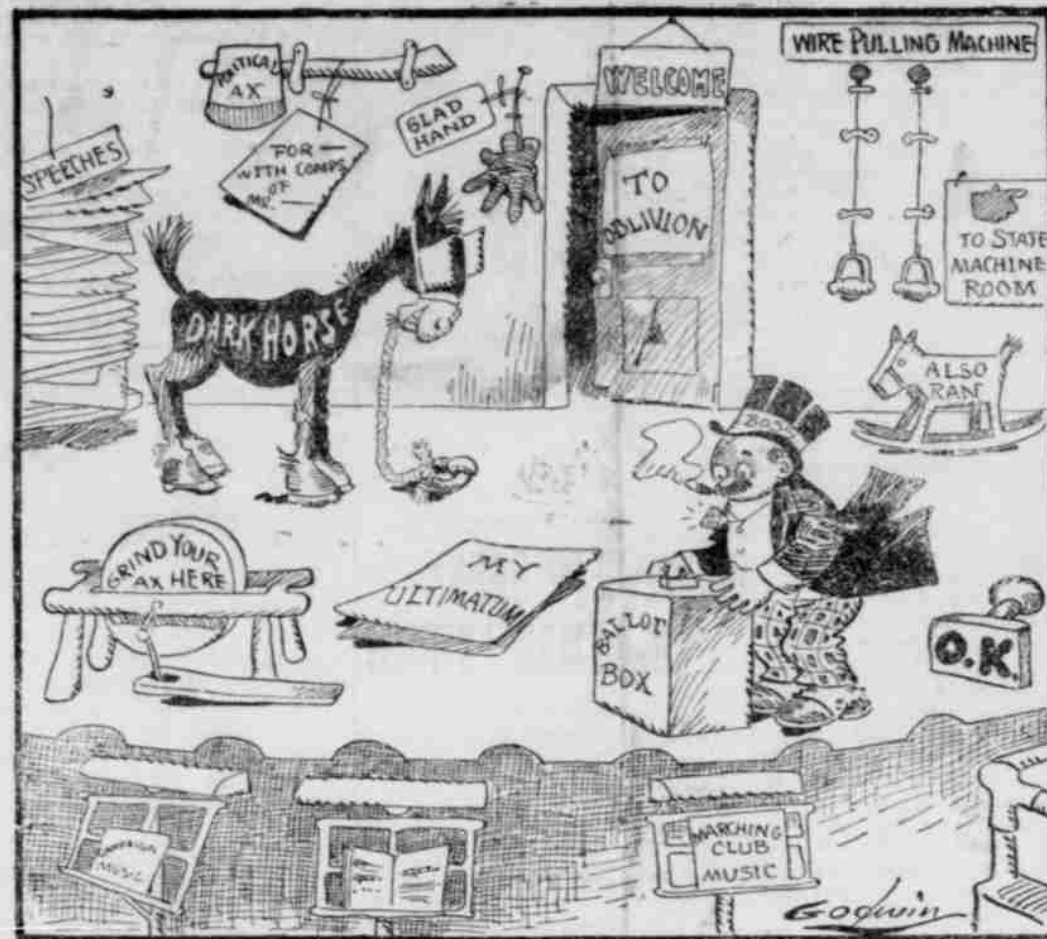

Senator Ives asserted that the once proud republican ship of state, with its hull now wormeaten and the black flag of Cannibalism and Aldrichism flying from the masthead, is doomed to present destruction. He claimed that the statehood bill, advocated by democrats for twelve years, and dodged by republicans, was forced on their recent congress by a democratic ultimatum, and when compelled to pass some sort of bill in order to get Taft's pet policies through the republic party framed an insult to Arizona while the recalcitrant republicans from this territory stood fawningly by and submitted to the insult to their fellow citizens without one of them having the dignity to even protest.

When he appealed to insulted Arizonians to take their revenge out on the men who consented until they can get a chance at the perpetrators of the insult, the vast audience cheerfully agreed to do so.

AGED MAN INJURED.

TOMBSTONE, July 29.—(Special)—Thomas Haverstock, aged about 70 years, was injured early this morning while riding a fractions horse at his home ranch near Sycamore Springs, nine miles north of here. The animal, rearing with him, fell over backward, breaking his left leg. Dr. Rosebury of this city is attending him. On account of Mr. Haverstock's age, serious results are feared.

POLITICS WARMING UP

BOOM STARTED FOR PINCHOTAS N. Y. GOVERNOR

Roosevelt, Like Bro' Rabbit, Lay Low an' Say Nuttin, But Is Believed to Be Behind It.

NEW YORK, July 29.—Gifford Pinchot took his place today upon the list of possible candidates for the republican nomination for governor of New York and Theodore Roosevelt was asked to support his candidacy. While Roosevelt was not outspoken, it is believed he does not look unknownly upon the boom.

Dr. Samuel McCune Lindsay, former commissioner of education of Porto Rico, now a professor in Columbia University, is the man who launched the boom. He had a long conference with Roosevelt and left with the air of a man well pleased with the turn things had taken.

Dr. Lindsay explained that while Pinchot was often absent from New York in recent years, he always retained his legal residence in this city and regularly voted here.

The fact that he was talked of at one time for governor of Pennsylvania was based said Lindsay upon a false idea that Pinchot had a legal residence in Milford, where he has a country place. Lindsay is a close friend of both Roosevelt and Pinchot. Roosevelt told him today that in his opinion Pinchot would draw support from the same sources which had given power to Governor Hughes in past campaigns. Pinchot and the former president are in sympathy with the general trend of Hughes' policy.

Pinchot is now on his way east for another conference with his old chief. Lindsay said the personal relations between Taft and Pinchot had always been pleasant and were not interrupted by any differences over the conduct of the interior department.

"We who favor his candidacy do not consider that his nomination could be taken as an intended affront on the national administration."

BELIEVES ITALIAN SHOT BY TERRORISTS

MAN SHOT DOWN THOUGHT TO HAVE BEEN UNDER BAN OF SOCIETY.

SAL LAKE, July 29.—That Leonardo Piro was shot down by a mysterious stranger wearing a black mask because he failed in his obligation to an Italian society is the conviction growing upon the officers detailed to investigate a west First Street saloon murder early this morning.

Piro's bride of five months imputed the crime to one of the order but her theory is disbelieved. In Italian circles it is believed that Piro was associated with an Italian society at Newark, N. J. and came to Utah five years ago to evade its dictates.

THE WEATHER

For Arizona—Cloudy in south with showers in northern portion.

RIOTING GROWS WORSE AFTER TROOPS ARRIVE

Columbus Strike Sympathizers Are Not Awed by Coming of Three Regiments of Soldiery.

ARE NOT ALLOWED TO POLICE CITY STREETS

Merchants Will Ask for Special Legislature to Pass Arbitration Law.

COLUMBUS, O., July 29.—The presence of three regiments of the Ohio National Guards did not intimidate the Columbus rioters and tonight the disturbances proved to be the worst since the strike began.

A score of imported employees of the street car company were injured by stones, bricks and other missiles and by 10 o'clock the car service, resumed at 4:30 following the return of Governor Harmon to the city was suspended and the cars taken to the barns for the night.

Mayor Marshall said tonight he was disappointed by the aid lent by the troops.

Promptly on the arrival of the governor he declared the military were not to be used for police duty. He declared they should remain in their camps until summoned to points where rioting broke out.

With nightfall the union sympathizers began attacks on cars in all sections of the city. They defied the police as they had on previous nights. As they did not gather in crowds there were no mobs to disperse.

Before the troops could be summoned the cars were stoned and the guilty persons made their escape.

A notable episode occurred on the north side where after the crews had been driven from the cars, threats were made to overturn and demolish the cars, but Battery C. arrived in time to drive away the people with riot clubs.

Retail merchants will call on the governor tomorrow to summon the legislature in special session to provide for a compulsory arbitration law.

WIFE DOES PENANCE

CHICAGO, July 28.—Because of a family quarrel, in which he insisted his wife was at fault, J. Anderson of Waukegan today compelled her to do penance by crawling on her knees several blocks to a church and confessing she had marred the family's domestic tranquility.

TRAPPED AND BURNED

GRAND RAPIDS, Mich., July 28.—Trapped in bed with her week-old baby, Mrs. Grace Wilson was burned to death this afternoon. A nurse, Mrs. Amelia Keeney, who heroically tried to rescue mother and babe, received burns which proved fatal an hour later, and the baby is now dying in the hospital.

WIDER CAUGHT NEAR PILFERED BANKING HOUSE

Cashier Charged With Stealing Half Million Found on Street Within Few Blocks of Institution.

NEW YORK, July 29.—A quiet little man with grey eyes and hollow cheeks in whose manner and presence there is nothing to suggest that single handed he had coolly lifted five hundred thousand dollars in bonds and stocks from a strong box of a bank, was arrested today in the downtown residence district within five minutes walk from the bank he had robbed.

He was Erwin Ryder, the missing cashier of the Russo-Chinese bank.

In the court of general sessions his lawyer, Leon Ginsberg, said he would plead guilty and he was committed to the Toms in default of \$25,000 bail. Ginsberg pleaded vainly with Judge Foster to reduce the bail and declared Wider had not a cent of the money left.

"It was all swallowed up in Wall street," he said.

Almost as Wider was arrested the grand jury handed in an indictment charging him with the theft of these certificates that were disposed of by him through the brokerage house of Dick Bros. during September last.

His arrest today was due to the persistence with which detectives trailed Wider's wife. She was visiting last night with Mrs. Ginsberg, who besides being Wider's attorney is also a neighbor. From thence she was traced today to the restaurant where her husband was arrested.

LAUNCH DRAGS TWO TO WATERY GRAVES

PLEASURE PARTY AT FORT SCREVEN TURNED INTO TRAGEDY WHEN BOAT CAPSIZED.

SAVANNAH, Ga., July 29.—At least two were drowned and several had narrow escapes when a covered launch owned by the government and used by Fort Screven soldiers was sunk in Lazarette creek near the fort today.

Dead: Sergeant Henry Oliver, aged 45, 121st company coast artillery corps.

Lionel, the 6-year-old son of Sergeant Drake 121st company.

A woman member of the party was caught by the tide and carried several hundred feet, screaming until she lost consciousness. She was rescued by fishermen and after a long time revived.

The other occupants of the launch are believed to have escaped. The top of the craft struck a bridge, careened and was swept under water.

RAILROADER DIES

SALT LAKE, July 29.—Michael Fitzpatrick who as roadmaster of the Denver & Rio Grande had charge of much broad gauge road west of Pueblo, died today aged 57 years.

MINING CONGRESS TO FIGHT TAFT'S POLICY

MEXICANS SLAUGHTER CHINESE MERCHANTS

DOUGLAS, July 29.—(Special).—Reports reached this city this evening of an uprising at Yaqui, a hamlet south of the Yaqui river, against the Chinese. Several were killed, including a Chinese woman, and the bodies hacked to pieces by the mob in a rage against the growing invasion of the mercantile business of Mexico by Chinese. Rurales caught sixteen of the alleged leaders, who, it is reported, will be shot.

TAFT CANCELS SPEAKING TRIP OVER COUNTRY

Asks Senator Crane to Make Journey Over West While He Inspects Work in Canal Zone.

BEVERLY, Mass., July 29.—Senator Crane, of Massachusetts who occupies a position in the senate similar to that of the republican "whip" in the house, was summoned to Beverly today and had a long talk with Taft. Crane was asked by the president to make a trip through the west in the near future as far as Seattle. He will inquire into the political situation.

The president desires information at first hand and has confidence in Crane's political sagacity. The senator is noted for the quiet manner in which he accomplishes his difficult tasks. At the last session of congress Taft relied absolutely upon him and often made him the means of communicating the administration views to the upper branch.

The senator has already made a few quiet trips and discussed his observations with the president today. The senator's visit was surrounded by the greatest secrecy. It was denied that his visit had anything to do with the Hallinger-Pinchot controversy. It was stated with authority that the president never considered asking Hallinger to resign from the cabinet.

Another significant move of the president was today when he announced that he had cancelled all engagements, tentative or otherwise, that he had made for different parts of the country this fall.

Important affairs of the administration, it is said, will keep the president busily engaged at Beverly and Washington until November.

In November it is announced he will make a three weeks' trip to the isthmus of Panama to observe the progress of canal work. Political considerations may have something to do with the cancellations. It is difficult for the president to travel through doubtful states without being drawn into campaigns at least without having his speeches construed into political utterances. In the list of wholesale cancellations announced there were three omissions. One is Provincetown, Mass., August 5, when he is to review the Atlantic battleship fleet and speak at the dedication of the pilgrims' monument. It is left an open question whether he will speak at the national conservation congress, at St. Paul September 5 and 7, and the unveiling of a monument at Portland Me., August 11. The chances are that the president will go to St. Paul. Among engagements cancelled is that for the Trans-Mississippi congress at San Antonio Tex., November 22 to 25.

THOUSANDS CROWD S. D. & A. TRAIN

EXCURSION RUN OVER PORTION OF ROUTE COMPLETED, FOR FESTIVAL IN MEXICO.

SAN DIEGO, July 29.—Nearly 2,000 people crowded the coaches of the first passenger train run over that portion of the San Diego and Arizona railway now completed. The route was from this city to the Mexican line, a distance of fifteen miles, and thence ten miles into Mexico.

John D. Spreckles president of the road the lieutenant governor of Lower California Senator La Roque as well as other Mexican officials were among the excursionists.

According to the program three Denver men, Gen. Hale, Herbert Sands and Charles Chase are to give a report to a committee which is to make investigation for standardization of electrical equipment for mining.

BOILER EXPLODES

CINCINNATI, July 28.—As a passenger train on the Baltimore & Ohio Southwestern railroad was slowing up at Winton Place a suburb near this city at 11 o'clock tonight, the boiler exploded killing the fireman, John Smith and fatally injuring Martin Welsh the engineer.

CONSERVATION OF PRESIDENT NOT POPULAR

Roosevelt-Pinchot Policy on Other Hand, Meets Enthusiastic Favor of Mining Men

MANY ADVOCATES TO DELIVER ADDRESSES

Plans of Administration Add Too Heavily to Burdens of Mining Interests

DENVER, July 29.—Charging that the conservation bills known as Senate Bills 5484 and 5486 to 5492 inclusive, would seriously retard western mining development and add to the already heavy burdens of mining men, western mining men are planning a strenuous fight against the measures at the annual session of the American Mining Congress at Los Angeles, beginning September 28.

An official call for the meeting was issued at the Denver headquarters today and 3000 delegates are expected to attend, representing the important mining interests of the United States, Canada, Mexico and Alaska.

It is announced that the conservation policy of the government is to receive a big share of the attention of the congress and endeavor made to learn the true attitude of the west on the question. A bitter fight is expected as, for weeks, the sentiment among mining men has been actively formed in opposition to what is termed the Taft-Wickersham-Nelson policy concerning the development of water powers and disposition of mineral lands.

The leaders who are expected to speak against the measures include Borah, Heyburn of Idaho, Perkins of California, and Congressman Bartlett of Nevada.

The most enthusiastic of the Roosevelt conservation policy, including Pinchot, Garfield, Pardee of California, and others, are also expected to address the delegates.

It is thought not unlikely that Roosevelt conservation policy men in pressure is being exerted throughout the west to get him to accept an invitation to be present and defend the policy which is causing widespread dissatisfaction. It is asserted, among mining interests.

"No doubt the mortal blow at the prime authority of the West that is contained in the conservation bills will be emphatically resented at the Los Angeles meeting," said a prominent official of the congress this afternoon.

"The bills provide, in effect, that the remaining coal lands be leased by the federal government, a part only of the proceeds to be paid the states, and that the development of water power be controlled by the general government."

"Together with the added burdens already placed upon mining by the forest service regulations concerning the location of patenting lands, use of timber, etc., the policy is taking the remaining resources from the control of the states constitutes a radical departure from the system under which western development has already gone forward. We believe that it will retard all western development; mining as principally western industry will suffer most heavily."

According to the program three Denver men, Gen. Hale, Herbert Sands and Charles Chase are to give a report to a committee which is to make investigation for standardization of electrical equipment for mining.

BOILER EXPLODES

CINCINNATI, July 28.—As a passenger train on the Baltimore & Ohio Southwestern railroad was slowing up at Winton Place a suburb near this city at 11 o'clock tonight, the boiler exploded killing the fireman, John Smith and fatally injuring Martin Welsh the engineer.
